Show Events Information

Welcome to the Gopher State Timing Association's 66th Annual 2024 Rod & Custom Spectacular at the Minnesota State Fairground's April Warner Coliseum!

Join us on Saturday, April 6th from 9 am to 8 pm and Sunday 9 am to 6 pm for an unforgettable automotive experience. Brainerd International Raceway presents the best hot rods, customs, street machines, trucks, and motorcycles found anywhere!

Back this year, GSTA proudly sponsors the **Newgate School**, a post-secondary non-profit automotive technical school dedicated to providing tuition-free training and career placement support for under served young adults in the Twin Cities and surrounding areas. One of Newgate's initiatives, the **Wheels for Women Program**, focuses on assisting single working moms.

Through vehicle donations, Newgate helps these moms by inspecting and refurbishing the donated vehicles through their Auto Mechanic and Auto Body Training programs. Selected reconditioned vehicles are then donated through Wheels for Women, serving as a meaningful way for students to give back to the community. To date, Newgate has awarded nearly two million dollars' worth of vehicles to working mothers in and around the Twin Cities.

Minnesota Street Rod Association will once again display 2023's Street Rod & Custom of the Year along with showcasing several member cars! Along with MSRA, we will feature several amazing local clubs displaying in the show. Let's support these clubs who have put in a club display: Cops N Rodders, F-100 Club, Frankensteiners, Midwest Mopars, Northstar Camaro Club, Scavengers, SLUM Mods, Suede's, Timekeepers, Twin Cities Roadsters, and the Viking Chapter Motorcycle Club.

GSTA is proud to sponsor the Midwest Drag Racers Association Junior Dragster Program. Congratulations to **Carlee Reber** as the 2023 GSTA Junior

Kids don't forget to complete the **Scavenger Hunt** of amazing car show adventures including competing with a drag racing Christmas Tree, sitting in a real race car, and voting for your favorite for the Kid's Choice Trophy!

Last year, GSTA brought back the Model Car Spectacular with great success, displaying over 70 models showcasing the builder's skills and talents. This year, we're thrilled to announce an even bigger and better featured event!

See the original 1969 Ford Drag Team Factory Race Cars. Starting in 1969, Ford had east coast and west coast drag racing teams. West coast had white cars with blue strips, east coast had blue cars with white strips. GSTA will be featuring the 3 cars from the west coast Ford Drag Team. Included are a 1969 Mustang Superstock, a 1969 Fairlane Superstock and a Prostock 1969 Mustang powered by a 427 SOHC motor.

Throughout the weekend, enjoy live remote broadcasts by **Paulie Spit and KSIZ Sizzlin 99.9**, adding to the excitement. And mark your calendars for the award ceremony and trophy presentation on Sunday at 5 PM, where over \$7500 in prizes will be given out.

If you haven't experienced the "Clearing of the Coliseum" join us after the award ceremony, for sensory overload as the sights and sounds of thundering engines all firing up to leave the show.

Save The Date: Gopher State Timing Assn's 67th Rod & Custom Spectacular Car Show Information:

Stay tuned for exciting updates as we continue to innovate and bring you unforgettable experiences. Get ready to be amazed by what is in store for the future of GSTA events! Some exciting announcements

will be coming shortly!

THE WORLD'S FASTEST GROWING MUSEUM

Founded in 1992 by “Speedy” Bill and Joyce Smith, the Speedway Motors Museum of American Speed is dedicated to preserving, interpreting and displaying physical items significant in racing and automotive history. The vast collection resulted from the Smiths’ personal involvement in racing and hot rodding for more than six decades, and their lifelong passion for collecting and preserving historic automotive artifacts.

Today, we are striving to foster innovation with younger generations by hosting educational and family friendly events to engage those in our local community. We are working to incorporate more interactive displays, racing simulators, a slot car track, an upgraded LEGO track, and more, to enhance our visitors’ experience. Our goal is to continue to fuel the passion for automotive history, innovation, and technical skills with our future generations to come.
